WATER WISTERIA

This is a lovely bushy plant with lacy light green leaves. When some of the leaves detach, they will often produce roots and can be planted down to make new plants. As it is quite a soft leafed plant it may be attractive to plant eaters such as goldfish but is a beautiful addition to most tropical setups.

HALF PRICE SPECIAL

Usually \$6.50 per bunch – Now \$3.25!

PEPPERMINT SHRIMP

Best known as eaters of nuisance anemones (aiptasia) these salt water shrimp are also good general scavengers. They are also quite attractive with red striping, but their soft bodies mean they cannot be mixed with toothy fish! Highly recommended for marine tanks.

**Regularly \$19.00 each
BIRTHDAY WEEKEND ONLY -
\$10.00 EACH.**

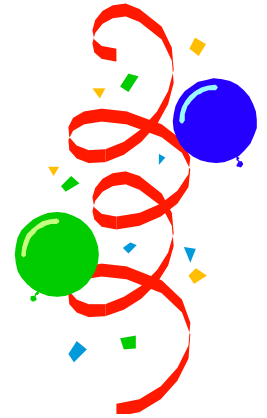

Great opportunity to grab a bargain!

SPECIALS AVAILABLE 14TH & 15TH MAY ONLY UNLESS SOONER SOLD OUT.

Seaweed Sheets are an ideal vegetable supplement for many freshwater and saltwater fish and invertebrates.

DON'T MISS OUR FREE INFO SESSIONS ON OUR BIRTHDAY WEEKEND.

SATURDAY 14TH AT 9.30 A.M. CO₂ FERTILIZATION

To start us off, Carl will be talking about CO₂ fertilization for growing freshwater plants. This method is by far the best way to promote lush plant growth and is the system used in our freshwater display tank, and, indeed, in Carl's own home tank.

We will have a complete CO₂ system available for sale which includes a 2.6kg cylinder, a regulator with bubble counter, 5 metres of tubing, 2 x check valves, a CO₂ checker and a diffuser, all for \$379.50. All of these components are also available separately.

SUNDAY 15TH AT 9.30 A.M. CORAL FRAGGING

Corals reproduce by spawning and also by division. In this session Brandon will demonstrate how to safely divide coral into 'fragments', attach them to a base and start them on their way to a new coral.

He will also show you various equipment available to make this process as easy as possible.

SUNDAY 15TH 10A.M. – 2P.M.

We are fortunate to have Jeff, a representative from Aqacenta visiting us. Aqacenta is the importer of Sanrise Lights and Jeff will be happy to demonstrate the features of these great lights and answer any questions. Aqacenta also are the distributors for Hikari foods and Jeff will be highlighting some of the newest foods in that range. He will also have the Aquamedic Ecodrift Wavemakers and the new Aquamedic Multi Reactors on display.

**THERE WILL BE SPECIAL PRICES FOR AQACENTA ORDERS
TAKEN ON THE DAY!**

SPECIALS AVAILABLE 14TH & 15TH MAY ONLY UNLESS SOONER SOLD OUT.

BUY IN BULK FOR BIG SAVINGS! Normally \$5.40 per packet.
BUY A BOX OF SIX OF THE SAME TYPE FOR \$25.00. SAVE \$7.40.

CORAL BEAUTY ANGEL. Perhaps one of the most beautiful of the dwarf angel family. Coral Beauties are an easy to keep marine fish, and unlike larger growing angels are considered reef safe. In a small aquarium can be territorial with other dwarf angels but are generally peaceful. Regular Price \$46.00
BIRTHDAY WEEKEND ONLY \$36.00

FIRETAIL GOBIES. Another beautifully coloured marine fish which can be kept in reef tanks or fish only tanks with suitable sized tank mates. Unless kept in a very large tank, they are best kept singly or in pairs to prevent territorial behaviour. Normally \$ 37.00. **SPECIAL PRICE \$29.00**

HEAD & TAIL LIGHT TETRAS. These peaceful little tetras are ideal for the small fish community. They display best in a school and are a great contrast to other tetras such as neons. Quite hardy and easy to feed. Regularly \$4.70
NOW 5 FOR \$17.00 BUY IN BULK & SAVE!

BALLOON MOLLIES. This variety has been bred through from the standard molly and look like they have swallowed a marble! The swim with a 'wagging' motion which looks quite comical. Easy to keep. Usually \$7.50 **NOW \$3.75**

TANGERINE PEACOCKS. Peacocks are an African Rift Lake Cichlid from Lake Malawi. They are a territorial and semi-aggressive fish and are best mixed with other Malawi Cichlids of a similar temperament and size with plenty of caves and hiding places. Regular Price \$16.50 **SPECIAL PRICE \$9.99.**

COMET GOLDFISH. With their streamlined bodies and strong single tails, these are the speedsters of the goldfish world. Cold water fish which can be kept indoors or in outdoor ponds. Easy to keep and feed these are often a 'first fish' for children. Must be kept covered as they are inclined to jump. Usual price \$3.50. **NOW ONLY \$2.20.**

GOLFBALL CORAL. The golf ball shape of this coral's skeleton is unrecognizable once the beautiful long polyps open out. This is a spectacular coral especially when placed in a current to move the polyps about. Regularly \$34.00.
BIRTHDAY PRICE \$24.00 – SAVE \$10.00.
